

We are immensely grateful to the community of **Franconian International School for the valuable book donation our Atlantic school students received.**

Since the beginning of a large-scale russian aggression against Ukraine, it has been a massive challenge for our school to refill and renew our English library.

**Our school is in Kyiv,
the capital of Ukraine.**

English is a significant part of our curriculum.
And English books and textbooks are
irreplaceable in our bilingual program.

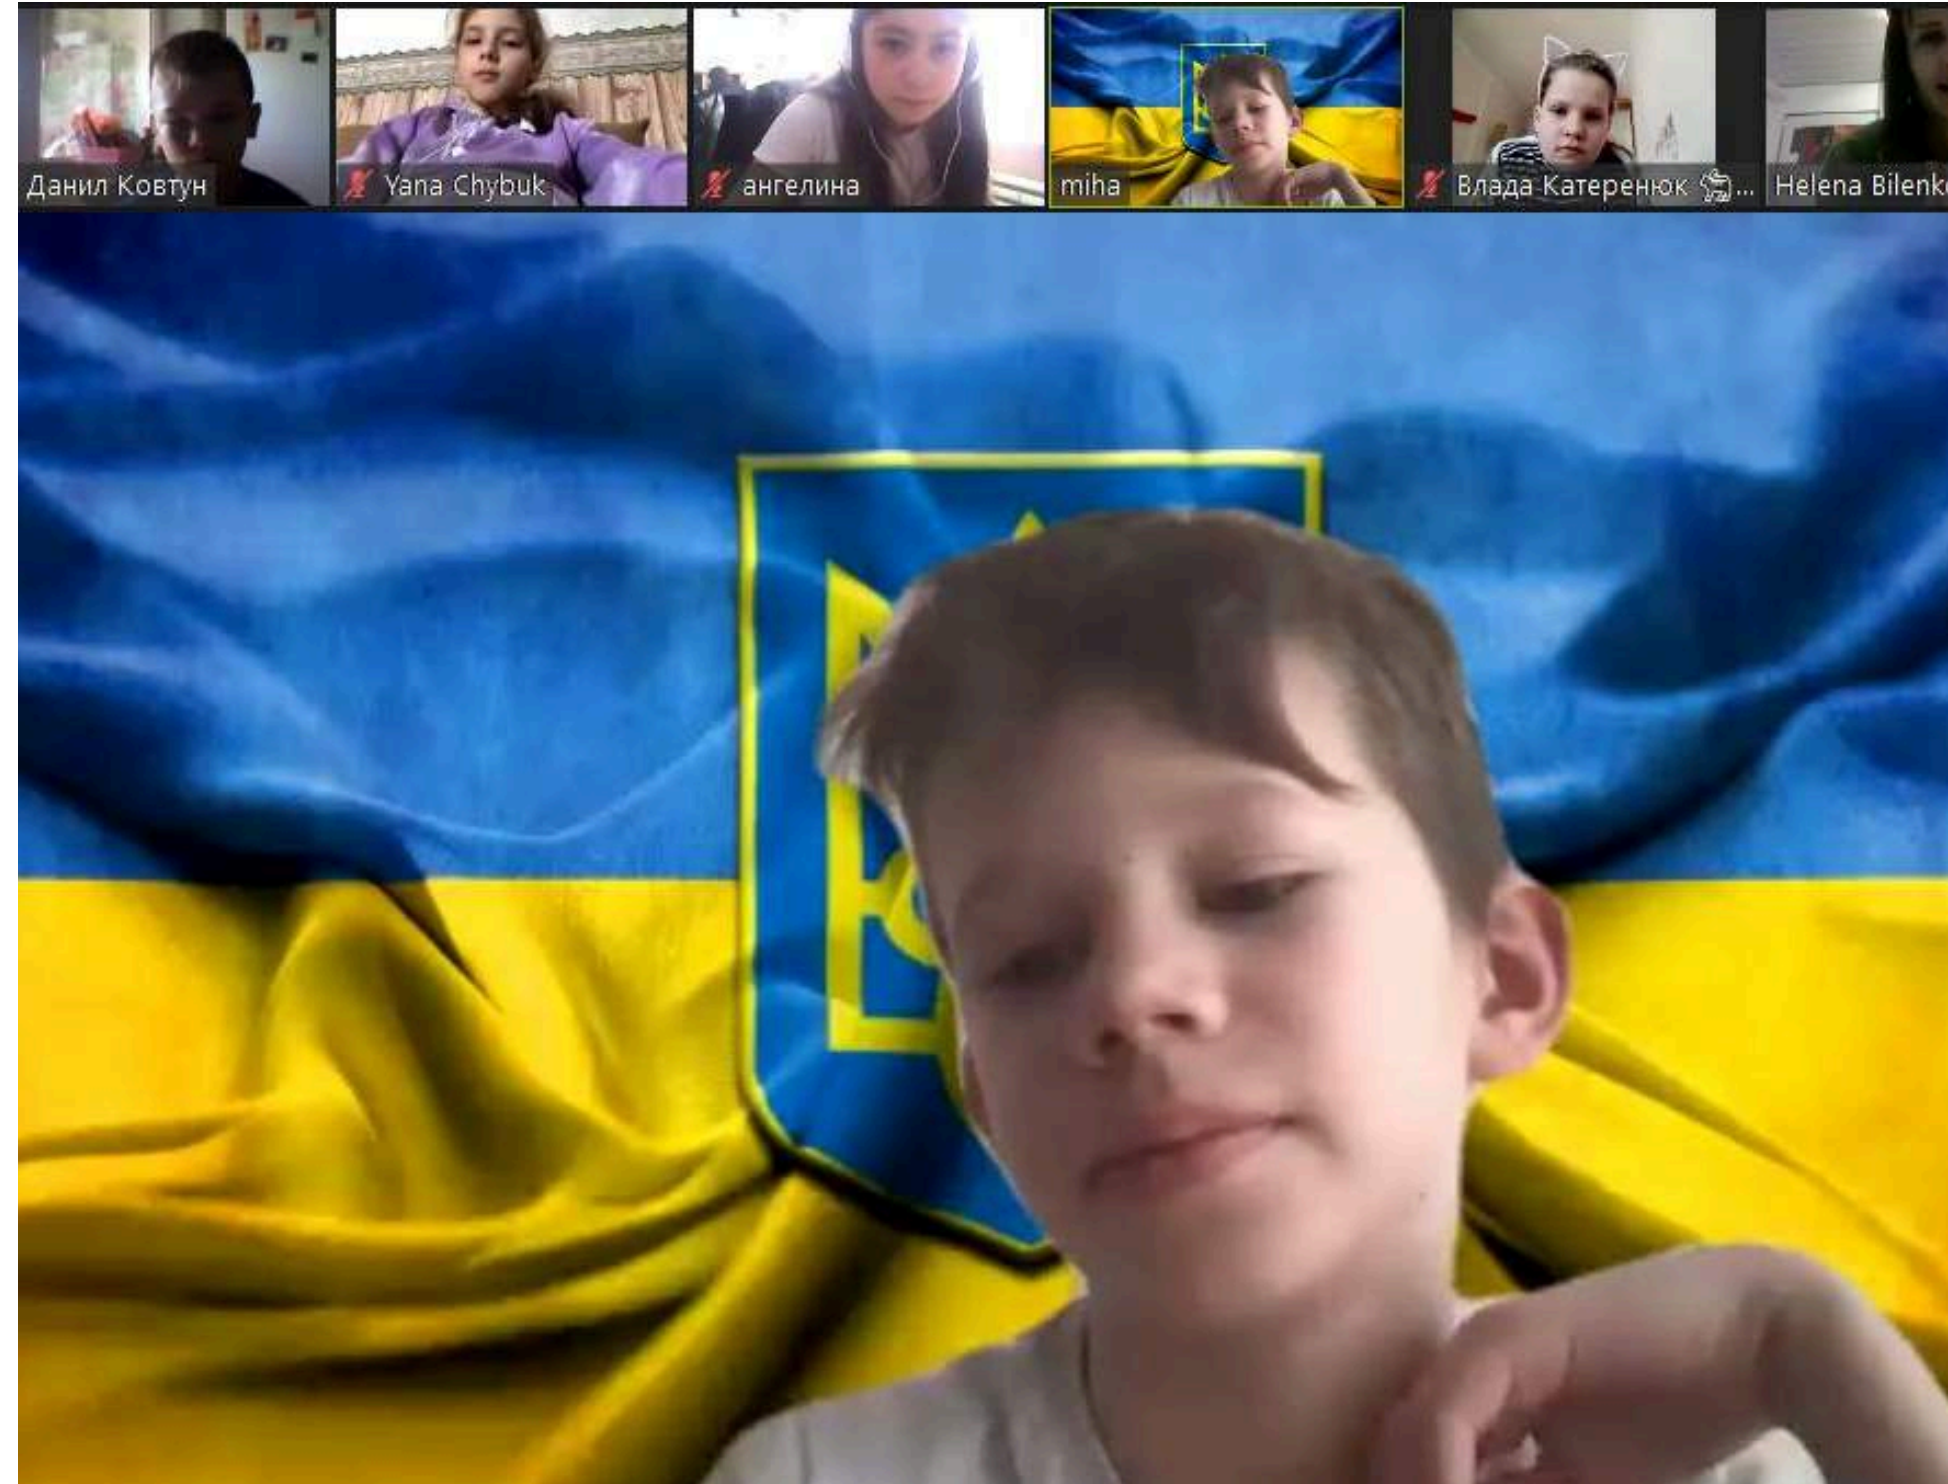

Parents and educators from FIS helped enrich our library with hundreds of exciting English books, encouraging curiosity, learning, and reading adventure.

Whenever we hear air raid sirens, we rush immediately to an underground shelter, where we stay for a few hours daily. Here, we continue to have story times, snacks, and classes.

Since April 2022, Atlantic School has offered free online learning for Ukrainian children from destroyed places in Ukraine.

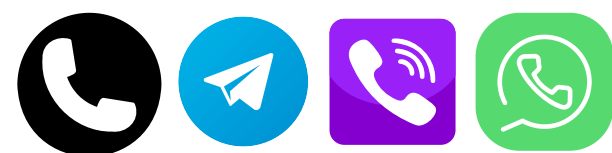

Now, the **Franconian International School** community helps us and provides book support.

Such support encourages us in the path of kindness and compassion.
